“Headache on the Hill” Participants
c/o Mr. Michael John Coleman
Executive Director
MAGNUM, the National Migraine Association
100 North Union Street
Alexandria, Virginia 22314

Dear Mr. Coleman and Reception Attendees:

I am pleased to send warm greetings to each of you tonight at this reception celebrating your participation in “Headache on the Hill,” a medical education event to raise awareness about migraine and headache disorders.

I have had the opportunity to work with MAGNUM: The National Migraine Association in their efforts to advance the knowledge and understanding of migraine disease and headache disorders over the last decade. As I understand, the purpose of the Headache on the Hill is to educate legislators about the need for funding at the National Institute of Neurological Disorders and Stroke at the National Institutes of Health for migraine and headache research. The American Academy of Neurology states that migraines and headaches affect one in eight adults, and account for nine percent of our nation’s productivity losses.

I salute you in your efforts to raise public awareness about the nature of migraine headaches and other head-pain disorders. By increasing public understanding of these debilitating diseases and the need for research in these areas, you point the way to a better future for countless individuals who suffer from these disorders.

With kind regards, I am

Sincerely,

John Warner
